Idris HOUIR ALAMI

+1 (925) 510 31 39, idris.houiralami@berkeley.edu

EDUCATION

University of California, Berkeley *Berkeley, USA, 2025-2026*
M.Eng. in Industrial Engineering and Operations Research (IEOR)
- Incoming student

CentraleSupélec, Paris-Saclay University *Gif-sur-Yvette, France, 2022-2025*
One of France's top tier Grandes Écoles for science & engineering
- Relevant coursework: *Advanced Statistics, Machine Learning, Artificial Intelligence, Algorithmics, Economics, Optimization*
- GPA: 3.9/4.0

Lycée Sainte-Geneviève *Versailles, France, 2020 - 2022*
Preparatory program
- A two-year course in advanced maths, physics and chemistry leading to nationwide entrance examinations to the *Grandes Écoles* for scientific studies
- GPA: 3.9/4.0

Lycée Descartes *Rabat, Morocco, 2017 - 2020*
- Baccalaureate in sciences awarded with Highest Honours
- Selected for IMO, IPO, IChO, and national contests in maths and physics for 12K-students
- Awarded both the Moroccan Government Excellence Scholarship and the Ministry of Health Merit Scholarship for academic distinction

ENTREPRENEURSHIP & RESEARCH

Co-founder of TikiData *Paris, France, Apr. 2023*
Research project on ML for soccer analytics
- Developed a machine learning model for classifying game phases , reducing human annotation time by 10× while improving accuracy
- Conducted a 6-month applied research collaboration with a French Ligue 1 professional soccer club to design, train, and validate the model
- Discussed findings and methodology with Petar Veličković (Senior Research Scientist, Google DeepMind), lead author of TacticAI: an AI assistant for football tactics (Nature, 2024)
- Invited to present research outcomes at STN in Munich (Dec. 2024), the largest sportech event, with press coverage highlighting our work

Co-founder of MemoGen *Remote, Jun. 2025*
AI-powered tools for automating VC workflows
- Built a suite of VC-specific tools, including pitch deck summarization, automated dataroom parsing from a simple link, and investment memo generation with key insights
- Secured an initial design partnership with US-based fund P1 Ventures

INDUSTRY EXPERIENCE

Elaia – European Venture Capital (VC) firm focused on Digital & Deep Tech startups *Paris, France, Feb. 2025 – Aug. 2025*
VC Analyst Digital Venture
- Proposed and independently developed an internal AI-powered dealflow automation platform that analyzes pitch emails, extracts key data, updates the CRM, and generates an investment memo with a thesis-aligned score — reducing analysts' workload by over 50% and improving screening efficiency
- Conducted deep investment analysis on founders, technology, and markets; supported due diligence processes and deal negotiations
- Actively participated in the startup ecosystem through demo days, pitch contests, and industry events
- Authored an article on Causal AI, interviewing domain experts and researchers, and reviewing academic papers

Richemont – Global luxury leader (Cartier, Van Cleef & Arpels …) *Paris, France, Jul. 2024 – Jan. 2025*
Data scientist intern
- Applied Causal ML techniques (e.g., propensity score matching, uplift modelling) to replace A/B testing and build unbiased models
- Conducted analyses on product performance and customer behaviors, and worked with LLMs to analyze customer feedback
- Collaborated with data engineers and scientists, gaining hands-on experience in MLOps with technologies like VertexAI, Airflow, and GCP

SKILLS

Languages: French (native), Arabic (native), English (fluent), Spanish (advanced)
Programing: Python, SQL, MATLAB, R

OUTSIDE ACTIVITIES

Sports: Captain of my university's soccer team and referee in the youth league, tennis and marathon running
Volunteering: Active member of the Baby VC community, organizing events with leading VC funds on topics like robotics and supporting underrepresented talents in breaking into venture capital
Music: guitare (5 years), drums (3 years)
Interests: travelling, music, fitness, golfing, reading, journaling
