Idris HOUIR ALAMI

(925) 510-3139, idris.houiralami@berkeley.edu

EDUCATION

University of California, Berkeley *Berkeley, CA, 2025-2026*
M.Eng. in Industrial Engineering and Operations Research (IEOR)
- Relevant coursework: *Deep Reinforcement Learning, Survival Analysis & Causal Inference, Stochastic Optimization for Machine Learning, Applied Stochastic Processes*
- Capstone Project: AI Agents evaluation framework

CentraleSupélec, Paris-Saclay University *Paris, France, 2022-2026*
One of France's top tier Grandes Écoles for science & engineering
- Relevant coursework: *Advanced Statistics, Machine Learning, Artificial Intelligence, Algorithmics, Economics, Optimization*
- GPA: 3.9/4.0

Lycée Sainte-Geneviève *Paris, France, 2020-2022*
Preparatory program
- A two-year course in advanced maths, physics and chemistry leading to nationwide entrance examinations to the *Grandes Écoles* for scientific studies
- GPA: 3.9/4.0

Honors:
- Fung Institute Excellence Scholarship (Berkeley admission-based award)
- Awarded both the Moroccan Government Excellence Scholarship and the Ministry of Health Merit Scholarship for academic distinction
- Selected for IMO, IPO, IChO, and national contests in maths and physics for 12K-students

ENTREPRENEURSHIP

Co-founder of TikiData *Paris, France, Apr. 2023*
Project with a mission to leverage data for revolutionizing soccer decision-making
- Built an enhanced model for analyzing game phases
- Achieved 87% accuracy, outperforming manual human labelling, and reduced labeling time by 10× through automation
- Collaborated for 6 months with French first division soccer club Stade de Reims to validate model performance
- Invited to the largest sports and tech event (STN) at ISPO in Munich on December 3rd and 4th, 2024, to present our work

Co-founder of MemoGen *Remote, Jun. 2025*
AI-powered tools for automating VC workflows
- Built a suite of VC-specific tools, including pitch deck summarization, automated dataroom parsing from a simple link, and investment memo generation with key insights
- Developed additional modules for market discovery and trend analysis to assist early-stage sourcing and due diligence
- Secured an initial design partnership with US-based fund P1 Ventures

PROFESSIONAL EXPERIENCE

VC Analyst & AI Tools Builder *Paris, France, Feb. 2025 - Aug. 2025*
Elaia – European Venture Capital (VC) firm focused on Digital & Deep Tech startups
- Designed and built an internal AI-powered dealflow automation platform — reducing analysts' workload by 50%+ and improving screening efficiency
- Evaluated early-stage startups across AI, SaaS & Deep Tech; presented weekly recommendations to the investment team
- Conducted deep investment analysis on product, technology, and market dynamics
- Actively participated in the startup ecosystem through demo days, pitch contests, and industry events

Data Scientist (Machine Learning) *Paris, France, Jul. 2024 - Jan. 2025*
Richemont – Global luxury leader (Cartier, Van Cleef & Arpels …)
- Applied Causal ML techniques (e.g., propensity score matching, uplift modelling) to replace A/B testing and build unbiased models
- Conducted analyses on product performance and customer behaviors, and worked with LLMs to analyze customer feedback
- Collaborated with data engineers and scientists, gaining hands-on experience in MLOps with technologies like VertexAI, Airflow, and GCP

SKILLS & INTERESTS

Languages: French (native), Arabic (native), English (fluent), Spanish (advanced)
Technical: Python, SQL, MATLAB, R
Interests: Travelling, Music (Drums, Guitar), Reading, Journaling
Sports: Captain of my university's soccer team and referee in the youth league, golf, tennis and fitness
